SUBJECT: Operational and Preventive Maintenance
Guidelines for Virtual Postal Address
Redirection System (vPARS) Feeder Sites

DATE: October 20, 2023

TO: All PARS Feeder Sites

PUB NO: MMO-076-22
FILE CODE: 2VA, 2VB
FILE ID: mm22077
REV LEVEL: aj

This Maintenance Management Order (MMO) provides Preventive Maintenance Guidelines for the Virtual Postal Automated Redirection System (VPARS). This bulletin **supersedes MMO-099-20 for feeder sites only**. This bulletin applies to Acronym PARS, and Class Codes VA and VB.

Remote Encoding Center (REC) Video Display Terminal (VDT) maintenance is not included in this MMO. These preventive maintenance guidelines are for Feeder sites only.

The workhours indicated in the workload estimate (Attachment 1) are based on a 24-hour operations window and reflect the maximum annual workhours required to maintain each system. Actual workhour requirements and the frequency of tasks are dependent on run time and pieces processed. Therefore, PM workhour requirements will vary day-to-day based on site-specific machine utilization. Management may modify task frequencies to address local conditions. The minimum maintenance skill level required to perform each task is included in the Minimum Skill Level column of each checklist. This does not preclude higher-level employees from performing any of this work.

WARNING

Various products requiring Safety Data Sheets (SDS) may be utilized during the performance of the procedures in this bulletin. Ensure the current SDS for each product used is on file and available to all employees. When reordering such a product, it is suggested that current SDS be requested. Refer to SDS for appropriate personal protective equipment.

WARNING

The use of compressed or blown air is prohibited. An alternative cleaning method such as a HEPA filtered vacuum cleaner, a damp rag, lint-free cloth, or brush must be used in place of compressed or blown air.

WARNING

Steps contained in this bulletin may require the use of Electrical Work Plan (EWP) Personal Protective Equipment (PPE). Refer to the current EWP MMO for appropriate EWP PPE and barricade requirements.

For questions or comments concerning this bulletin contact the MTSC HelpDesk, either online at **MTSC>HELPDESK>Create/Update Tickets** or call (800) 366-4123.
